Rs. 37,377-0-0 (50 Civil Works Ordinary State (Tools & Plant).												
Rs. 28,05,877-0-0												

Funds were provided for the preliminary expenses during 1948-49 and this Division commenced functioning with 3 Sub-Divisions viz. "A", "B" and "C" Sub-Divisions. As the work expanded two more Sub-Divisions were opened during 1949-50 viz. Distributary Surveys & Designs Sub-Dn and Mechanical Sub-Division as the actual construction work of the canal was taken up. As work could not be well managed by the existing staff the Sub-Dn.(Defunct Malaprabha) namely "D" Sub-Dn was opened during 1950-51 as the work was on the increase.

In all the present strength of the staff is as shown now in the statement.

The nature of the work done in this Division is not -- comparable with the nature of works of other regular -- Divisions, as there is no regular work assigned to this Division. This is a -- Construction Division and every initiative will have to be taken every time. Data, material and information will have to be collected & most of the time and energy will have to be concentrated on this. It is therefore additional help may be required than the strength sanctioned for the regular Divisions.
